### **TURBO CONTINUOUS RIM**

## 600 Pro

### TILE - HARD DENSE MATERIALS

Cat® 600 Pro Porcelain & Hard Dense Material turbo mesh blades are designed with a unique rim which greatly aids in cooling the blade by carrying the coolant into the cut & reducing side friction, resulting in longer blade life & extremely clean, accurate, chip free & fast cutting in the hardest of materials. Ultra high quality diamond grit enables the blade to cut the most dense materials such as outdoor porcelain & will also perform extremely well in softer ceramic & natural stone tiles. Can be used on handheld grinders, hand-held circular saws, & tiles saws.
