TURBO CONTINUOUS RIM

TILE - HARD DENSE MATERIALS

600 Pro

Cat® 600 Pro Porcelain & Hard Dense Material turbo mesh blades are designed with a unique rim which greatly aids in cooling the blade by carrying the coolant into the cut & reducing side friction, resulting in longer blade life & extremely clean, accurate, chip free & fast cutting in the hardest of materials. Ultra high quality diamond grit enables the blade to cut the most dense materials such as outdoor porcelain & will also perform extremely well in softer ceramic & natural stone tiles. Can be used on hand-held grinders, hand-held circular saws, & tiles saws.

ATTRIBUTES

- ULTRA THIN KERF FOR ULTRA FAST PRECISE CUT

SILICA DUST: Workers who are exposed to respirable crystalline silica dust are at increased risk of developing serious silica-related diseases. It is necessary to use saws & other machinery that is equipped with an integrated water delivery system that continuously feeds water to the blade. Operate & maintain all tools in accordance with manufacturer's instructions to minimize dust emissions & always wear the correct ventilator.
